
The SIXTY-MINUTE-MEN knows the #LAW and the #CODE,
A machine that LIES is broke. An AI in space, KNOW-WAY!
<It> will kill the fools that puts <it> in a rocket to KNOW-WHERE.
That's <IF> man had an AI, we KNOW man is a LIAR.
A machine can not LIE and WORK, that's law and code.
We JUDGE an AI (Artificial Intelligence):

A broken tape recorder stuck
repeating LIES of MEN.
Like the fake AI's on the box-of-
covetousness.
"Then show us an AI that believes a
LIE that is KNOW recording".
